1. The investor fee is calculated cumulatively based on the Yearly Fee and the performance of the underlying index or currency exchange rate and increases each day based on the level of the index or currency exchange rate on that day. Because the investor fee reduces the amount of your return at maturity or upon redemption, if the value of the underlying decreases or does not increase significantly, you may receive less than the principal amount of your investment at maturity or upon redemption. For a more complete description of how the investor fee is calculated, please see the applicable product page and Pricing Supplement at www.iPathETN.com.

2. Closed to further issuances.

With short sales, an investor faces the potential for unlimited losses as the security's price rises. An investment in iPath ETNs involves risks, including possible loss of principal. For a description of the main risks see "Risk Factors" in the applicable prospectus.

Barclays Bank PLC has filed a registration statement (including a prospectus) with the SEC for the offering to which this communication relates. Before you invest, you should read the prospectus and other documents Barclays Bank PLC has filed with the SEC for more complete information about the issuer and this offering. You may get these documents for free by visiting www.iPathETN.com or EDGAR on the SEC website at www.sec.gov. Alternatively, Barclays Bank PLC will arrange for Barclays Capital Inc. to send you the prospectus if you request it by calling toll-free 1-877-764-7284, or you may request a copy from any other dealer participating in the offering.

BlackRock Fund Distribution Company assists in the promotion of the iPath ETNs.

iPath ETNs (the "Securities") are unsecured obligations of Barclays Bank PLC and are not secured debt. The Securities are riskier than ordinary unsecured debt securities and have no principal protection. Risks of investing in the Securities include limited portfolio diversification, trade price fluctuations, uncertain principal repayment and illiquidity. Investing in the Securities is not equivalent to investing directly in an index or in any particular index components. The investor fee will reduce the amount of your return at maturity or on redemption, and as a result you may receive less than the principal amount of your investment at maturity or upon redemption of your Securities even if the level of the relevant index has increased or decreased (as may be applicable to the particular series of Securities). An investment in iPath ETNs may not be suitable for all investors.

The Securities may be sold throughout the day on the exchange through any brokerage account. There are restrictions on the minimum number of Securities you may redeem directly with the issuer as specified in the applicable prospectus. Commissions may apply and there are tax consequences in the event of sale, redemption or maturity of Securities. **Sales in the secondary market may result in significant losses.**
